

Würth Industrial Services Malaysia

ELECTRONIC PROCUREMENT

**Let the systems
work for you**

TRANSPARENT

After placing your order in the Würth online shop an e-mail with the order details will be sent to you automatically. The data will be sent in a structured format such as txt, datanorm or openTRANS-XML. If your ERP-system is able to handle such data you can make your orders transparent in your own system.

INTERGRATED

Do you have an OCI interface? We would be happy to link our Würth online shop to your system. The useful features of our Würth online shop will still remain fully functional: scanner capture, cost center allocation, up-to-date product range and much more.

INTERCONNECTED

You can also have your system communicate directly with ours. We use Electronic Data Interchange (EDI) to exchange many standardized messages such as orders, order confirmations, delivery notes, invoices and many more in various formats and via different exchange protocols.

Messages

- Orders
- Order confirmations
- Delivery noted
- Invoices
- etc

Formats

- AP/IDOC
- EDIFACT
- XML (SAP IDoc, openTRANS, xCBL, BizTalk-XML, etc.)
- VDA

Exchange protocols

- http/s
- OFTP ISDN/TCP
- ftp
- sftp
- E-Mail
- etc.

EXCHANGE

Do you already use a catalogue management software or a multi-supplier platform? Then we can provide you with electronic catalogue data. We work with all common standards such as BMEcat 2.1, Datanorm, Punchout, eCl@ss and UNSPSC.

ACCESS

The structured catalogue data we create with your individual product range, can be stored in your software system to enable you to order products directly from us. This can primarily save processing costs, which are very high for C-Parts.

CONNECT

We are already working with major service providers to use the Würth scanner directly or with the help of the Open Catalogue Interface (OCI).

EXAMPLE OF MULTI-SUPPLIER PLATFORMS

Fill out the form and send it to us by e-mail:
eshop@wuerth-industry.my

* Required fields

GENERAL INFORMATION

Customer
number*:

Umbrella associa-
tion number*:

IT etc. technical contact partner for the connection

Name*:

E-mail*:

Phone*:

VAT ID*:

Würth supplier number:

System/platform used by the
customer*:

Additional remark:

Sales representative*:

Area manager*:

Important information for our field representatives!
Prices are an essential component of the catalog data.
Only those products/items which are provided with a **price frame-
work** can be displayed to the customer and ordered later on. This
is why the connection cannot be made until the **framework is in
place**.

Are you ordering with the Würth Art. No.?

☐ Yes ☐ No

Does an EDI connection to one of your suppliers already exist?

☐ Yes ☐ No

☐ Framework of conditions
is available and up-to-date

HOW WILL ELECTRONIC PROCUREMENT BENEFIT ME?

- No more typos or document matching
- Fewer errors and more control over the entire procurement process
- Less paper, and thus a more environmentally friendly process arrangement
- Less bookkeeping and administration
- Up to 30% lower process costs
- Allows you to concentrate on the core business

WHAT WE OFFER

Experience	More than 10,000 successfully connected companies
Flexibility	98% of all commercially available systems can be used
Productivity	You can continue working trouble-free during the technical connection

WHAT SHOULD I DO?

Would you like to reduce your procurement process costs by up to 30% with the merchandise management system you are currently using?

- Send the accompanying form to your IT administrator
- The IT administrator will transfer the completed form to our specialists by e-mail
- Our specialists implement the connection together with your IT administrator
- You retain full control and profit from automated document flow and faster processing
