

Wuerth Industrial Services Malaysia

# ORSY<sup>®</sup> PUSH

The first materials rack and chemicals storage  
with an automated reordering process.

**NEW**

# ORSY® PUSH – FULLY AUTOMATED. TRANSPARENT.

Our ORSY® storage and ordering system gives you an optimal usage of storage capability in your material management:

**OR**der with **SY**stem.

Our ORSY® systems are particularly suitable for items requiring fast accessibility and irregular demands. In co-operation with you, our customers, these modular ORSY® rack and storage systems are continuously further developed upon your individual requests.

Being a perfect extension to the already existing system solutions range the new **ORSY® PUSH** is the first materials rack and chemicals storage to reorder products fully automated and absolutely independently. By the use of an innovative control system and a sensor technology the effort for manual purchase requisitions and purchase orders will be reduced and thus the costs for purchasing and storage are minimized.

# ONE MATERIAL RACK. MANY POSSIBILITIES.

You can profit from the following **advantages** by using the new ORSY®PUSH in your material or maintenance management:

- Maximum material availability
- Suitable for low demand consumables
- Fast item accessibility
- Fully-automated reordering
- Maximum transparency and broad cost overview
- Easy change of assortment without master data adjustment
- Reduction of your internal logistics processes
- Reduction of purchasing efforts
- Reduction of storage costs
- Continuous assortment controlling
- Maximum safety due to sensor technology
- Innovative control system with touch screen
- Structured storage
- Suitable for different types of packaging
- Easy refilling
- Possibility of inter-withdrawal (order is not submitted immediately)
- E-Shop access code for direct orders
- Individual planning, assembly, labelling, refilling and continuous updating of your ORSY®system

**NEW!**

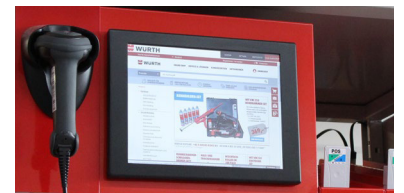

**First fully-automated chemicals storage**

**Chemicals storage – Safe storage and fully-automated re-ordering process of chemical-technical products.**

**Maximum item availability – Integrated sensor technology.**

**Innovative control system – Including Touch Screen.**

**Maximum mobility – Rack is also available on wheels.**

**Flexibility – Bin/cardboard box system.**
